

**"The discovery of Lenawee's Heart and Soul Creative Arts Academy has been one of the best I have made in my daughter's young life. She has absolutely thrived at the Academy.** She is naturally curious, but that curiosity and her thirst for learning has grown leaps and bounds. I have also noticed improvements in her creativity, artistic ability, musical aptitude, observational skills, and critical thinking. Most importantly, she LOVES going to school! She cannot wait to share with me all she has done each day. A big reason for that love is the curriculum, which often uses music and art to focus on reading, math skills, and science concepts, and allows the children to pursue their own interests. However, the biggest reason for her love of the Academy is her teachers, Ms. Valorie and Ms. Caryn, who are absolutely fantastic. When I asked my daughter to rate the Academy, she exclaimed "awesome, awesome, awesome!!" **I cannot recommend the Creative Arts Academy enough!"**
